At LeapZone, we truly believe in the importance and value of taking a *time out* for clarity, pivotal shifts and momentum to come together.

We know that getting away from your everyday, busy environment is key to your growth. This valuable away time creates a learning and growing process that is much more enjoyable, effective, and let's face it – possible.

That's why we developed Trailblazers Estate. A magical 5-acre equestrian property on Vancouver Island, designed to help you accelerate your success through transformational branding, business, and personal growth retreats.

TRAILBLAZERS EQUINE EXPERIENCE

Horses are experts in leadership and authentic living. Their wisdom and lack of ego is a true gift to any person wishing to grow personally and professionally.

In fact, we find them so powerful as teachers that we have incorporated an equine learning experience into every retreat we do at Trailblazers.

INTIMATE GROUP RETREATS

We think there is tremendous value in bringing people together from different walks of life to learn, create, and share. So, at Trailblazers we offer several 1-3 day retreats for intimate groups of up to 7 participants in areas of branding, business, and personal growth.

PRIVATE RETREATS

Time away from the office, reserved solely for key players of a business to think, explore, innovate and create is of the utmost importance to success. The LeapZone team leads customized private retreats for business owners and their key players, up to 7 people total, to experience this extremely valuable AND profitable time together at Trailblazers.
